

Архитектурное освещение

Алматы, Казахстан

Advantages of LED luminaires:

- Durability – operation life-time is up to 20 years;
- Economy – 2-time economy of electrical energy in comparison with the most efficient gas-discharge lamps;
- Reliability – there is no need for monthly maintenance;
- Ecological safety – utilization availability and its simplicity;
- Safety – lowering of “drowse” effect through blocking melatonin (hormone of sleepiness); absence of “flickering” effect which results in sight fatigue;
- Guaranteed high quality of illumination – contrast level of illumination is considerably higher in comparison with lamp luminaires; better colour rendering.
- High spectrum efficiency – better visual perception in comparison with other light so
