BXZ Series Backpack CDR

Алматы, Казахстан

1、Introduction to BXZ Series Backpack Core Drilling Rig
BXZ series backpack drilling rig is a portable core drilling rig with backpack, which is mainly suitable for borehole sampling in shallow geological exploration such as mineral exploration, geological research and engineering exploration in mountainous areas where transportation and energy are inconvenient.、、
2、Features of BXZ Series Backpack Core Drilling Rig
2.1 Compact structure, small size, light weight, easy to carry.
2.2 Using well-known brand gasoline engine, energy saving and high efficiency, the quality of drilling rig is guaranteed.
2.3 Equipped with high quality drill pipe and bit, it is durable and more efficient.
