

IR-illuminators for CCTV

Алматы, Казахстан

Dear Sirs,

Axton Technology Inc is a young and innovative US-based company specializing in the design and manufacturing of state-of-the-art infrared lights for CCTV.

Vast experience in design and manufacturing of electro-optical equipment allows us to produce the most functional and cost effective IR lights that will meet the requirements of the most discriminating professional. Proudly made in USA our products feature superior quality, reliability and performance.

We would like to invite all online dealers and distributors to join our Dealer and Distributor program. As a member of our Dealer and Distributor network, you'll be selling a quality US made product and enjoy healthy margins. We DO offer drop-shipping, so you won't even have to buy stock, unless your business model requires you to do so.

Your start-up kit will include all necessary product information, including, logos, product pictures and descriptions for easy integration into your site. As added bonus, your start-up kit will come with a FREE AT-7B infrared illuminator, mounting bracket, and power supply.

Please email us and provide some basic information about your business. Don't forget to include the link to your web site.

Thank you
